MOTHERS WHO WORRY

Secause Their Children Are Ailing Should Take This Advice

There is always a good reason why a child is frail, and the trouble is often traced to poor blood, which is caused by undersourishment. Of course every mother feeds her child regularly, but does the food digest and nourish the body? Mostly no, when the child is thin and alling. Many mothers in this city have found that a preparation of Cod Liver and Iron, called Vinol, is the best remedy for this condition. It contains no oil for children to object to but it does contain the most famous tonics known to medicine, as will be seen by read-ing the formula on the label. We advise mothers to try it.
